- Sculptures are created using non-perishable canned and boxed goods.
- Majority of the sculpture must be created using non-perishable cans of food. Boxed food items may be used but may not exceed 50% of the total number of food items contained in the sculpture.
- Cans must not have been opened before. The original seal must remain on the food items.
- Original labels must be on and remain on the can. You may not cover up or draw on the labels or boxes. Labels must be on the can at all times in order to be able to be donated to area food pantries.
- No expired foods or items with a use by date earlier than September, 2021, can be used.
- You can place a sign next to your sculpture that advertises your organization/business.
- ***Safety comes first!*** You can use certain building items to ensure the sculpture remains intact and upright. These items include: lumber, rope, cardboard, wiring, tape. **Please do not use any glue or tape that will damage the cans or labels in any way.** Any structural items used should be hidden within the structure and out of sight whenever possible. The focus of the sculpture is on the cans and food items used.

This volunteer may require you to remove or make changes to your sculpture to ensure it is safe. If you do not make these changes, your entry will be removed from the contest and your sculpture will be taken down immediately with the food then being donated to the local food pantries.
- Props that fit with the design/theme of your sculpture can be used, but please keep the use of props and other non-food items to a minimum.
